Dear Ed,

Effective July 1, 2009, INEOS Chlor Americas will raise the list and off-list prices for Methylene Chloride, and the remaining inventories of Perchloroethylene and Trichloroethylene products, by \$0.07 per pound.

This price increase is a result of the changing market conditions for chlor-alkali products and the consequential pressure on manufacturing costs and product margins.

Payment terms are net 30 days. Prices offered are FOB Ineos Chlor terminals, with freight allowed to destination, for full truckload quantities.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Stephanie Epply
Commercial Manager
